Leadership Training that
builds skill and awareness to
deliver bottom line results.

- Engaging
- Insightful
- Interactive

"In our business we have to manage and work with people who are working with other people who are in pain - not easy. Patrick has managed - in a very short course of time - to deviate from "generic" sessions to granular type feedback and analysis that the group is really embracing. We look forward to working with him over the next 12 months and hopefully beyond."

Andre Blom Director Illinois Bone & Joint

May 2013 **LEADERSHIP SERIES**

Vision: Transform managers from bosses/supervisors to engaged coaches of their employees.

Outcomes: Leaders will gain self-insight, knowledge and skills to effectively “coach” their teams.

Training Sessions

- **Coaching Skills 101** – session will focus on developing coaching skills such as acknowledging, validating, active listening and question asking strategies.
- **Fierce Conversations** – session will focus on leader’s conflict style and how to have difficult conversations with employees.
- **Building Championship Teams** – session will focus on developing elite teams and avoiding the dysfunction that derail many teams.
- **Motivation 2.0** – session will focus on delivering effective motivational strategies for the 21st century workplace.
- **Changing Mindsets** – session will focus on understanding mindsets and dealing with resistant perfectionistic people.
- **Focus** – session will focus on developing organizational, priority and focus skills for leaders.
- **DISC** – session will focus on developing awareness of working styles & behaviors and how they effect others in the workplace.
